SERGATE FLEET HIRE

THE UPPER HUNTER'S INDEPENDENT FLEET HIRE SPECIALIST

Established in 2022, Sergate Fleet Hire is a family-owned and operated local business, and the only independent fleet hire company based in the Upper Hunter, NSW.

We specialise in supplying comprehensively insured, reliable, modern, and site-ready light vehicles across a wide range of industries, including mining, renewable energy, infrastructure, civil, agriculture, equine, and defence. We offer flexible delivery across the Hunter Valley to support diverse project requirements.

With a strong focus on local service, flexibility, and reliability, we deliver tailored fleet solutions supporting projects from mobilisation through to completion.

Our fleet includes 4WDs, hybrids, SUVs, and hatchbacks, all road-tested for safety and reliability, with quick availability and flexible customisation to suit your requirements.

Toyota vehicles within our fleet are built to perform in harsh and demanding conditions.

As a locally owned and operated business, we pride ourselves on delivering personalised service. Clients deal directly with decision-makers, enabling fast response times, clear communication, and a flexible, solutions-focused approach.

We are passionate about supporting local industry and strengthening the Hunter Valley supply chain. By partnering with Sergate Fleet Hire, clients not only gain access to dependable fleet solutions, but also contribute to the growth and sustainability of local businesses.

Our focus is simple — to provide reliable vehicles, exceptional service and a seamless hire experience that keeps your business moving.

- Short and long-term hire options available
- A practical solution for project work, eliminating the need for upfront vehicle purchase and costly, job-specific fit-outs
- Stay connected via an easy-to-use app or speak directly with your fleet manager when needed – no call centres
- Big-company reliability and choice, backed by small-business service and values
- Ability to customise vehicles to suit specific project and site requirements
- No hidden costs — transparent pricing with daily, weekly, or monthly hire options to suit your budget
- Access to a trusted local supplier network for fast, efficient emergency repair support
- Dedicated fleet manager overseeing scheduled maintenance, incidents, and repairs
- Insurance cover included for travel on dirt and country roads

IF YOU NEED TO HIRE A VEHICLE, THINK LOCAL, AND GIVE US A CALL.

Sergate Fleet Hire delivers high-quality vehicles to both individuals and businesses, combining the efficiency, reliability, and standards of a major fleet provider with the personalised service, responsiveness, and attention to detail of a small business.

From the moment we first spoke with Shannon regarding her fleet hire business, we have been consistently impressed and satisfied with her exceptional fleet management solutions. Shannon's commitment to customer satisfaction has been unparalleled, and it's evident in every interaction we've had with her team.

Sergate's fleet is impeccably maintained, modern, and diverse, offering a wide range of options to suit any need. Especially at BRIKEN, we required mine-compliant vehicles ready to drive onto the local mine sites, and they have always had one ready to go when we needed it, even at short notice. What sets Sergate Fleet Hire apart is their ability to go above and beyond to ensure every aspect of the fleet hire experience is seamless and stress-free. If they don't have what you need, they will arrange it for you. We highly recommend Sergate to anyone in need of reliable, professional, and top-tier fleet services. They really are the gold standard in the local industry and proudly support other local businesses.
